Lexie app

Not tech savvy?

That's okay!

The Lexie app was designed with you in mind, you don't need any special tech skills to make it work.

We're here to support you each step of the way. All you need is a smartphone and you'll be ready to start in a few, quick steps.

I can hear the birds and crickets again.

It is so wonderful to be able to hear people I talk to without continually asking them to repeat themselves. The support is wonderful and they make the process very easy. - **Linda W**
